

# Weezer, Little Songs

Bip bopping strangers  
Downloading highs  
Destroy the old god  
Just pay the checks

Thank god breath of life  
Has come to make us right, right, right

Use any method  
Break any law  
Ignore the feelings  
Just make it raw

We justify our acts  
When we provoke a laugh, laugh, laugh

Time is swallowing  
All these little songs we sing

(lead break)

We justify our acts  
When we provoke a laugh, laugh, laugh

Time is swallowing  
All these little songs we sing

Use any method  
Break any law  
Ignore the feelings  
Just make it raw

Talk to our bodies  
Say what you will  
Without our numbers  
Are we a pill?

oooh, oooh-ohhh
