

Weezer, Little Songs

Bip bopping strangers
Downloading highs
Destroy the old god
Just pay the checks

Thank god breath of life
Has come to make us right, right, right

Use any method
Break any law
Ignore the feelings
Just make it raw

We justify our acts
When we provoke a laugh, laugh, laugh

Time is swallowing
All these little songs we sing

(lead break)

We justify our acts
When we provoke a laugh, laugh, laugh

Time is swallowing
All these little songs we sing

Use any method
Break any law
Ignore the feelings
Just make it raw

Talk to our bodies
Say what you will
Without our numbers
Are we a pill?

ooh, ooh-ohhh
