

Weezer, Mrs. Young

jamie says since you called yesterday
i have felt so swell
come back, come back from mexico
i need your strength i need your help
hated me won't you put me through
i miss you both, can't you tell
please let that be you
knocking on my door so loud just like you do
bring in a letter or two
jamie you are my faith and i love you
hey midge, what you guys been up to
how's prince is he okay
mrs. young i think you're the best
that's all i'm trying to say
please let that be you
ringing my phone right now let the wish you were too
callin' with some good news
jamie you are my faith and i love you
you are my faith and i love you
stand by my side always be true
you are my faith and i love you
raise my right hand i swear it's true
you are my faith, you are my faith, you are my faith, you are my faith
please let that be you
singing my song so nice like you do
humming along to your tune
jamie you are my faith and i love you.
