

# Weezer, No Other One

My girl's a liar  
But I'll stand beside her  
She's all I've got  
And I don't want to be alone

My girl don't see me  
When she's with my friends  
She's all I've got  
And I don't want to be alone

No, there is no other one  
No, there is no other one  
I can't have any other one  
Though I would  
Now I never could with one

All of the drugs she does  
Scare me real good  
She's got a tattoo  
And two pet snakes  
Nobody knows me like her  
Nobody knows her like me  
We're all we've got  
And we don't want to be alone

No, there is no other one  
No, there is no other one  
I can't have any other one  
Though I would  
Now I never could with one

No, there is no other one  
No, there is no other one  
I won't have any other one  
Though I would  
Now I never could with one
