## Weezer, On The Edge

Things are so complicated now I think I'm gonna throw out my neck I don't know what tomorrow brings And there ain't no way I can check

I go out to the movies I tell my girl she's groovy But no one ever seems to get satisfied

Things are so complicated now I think I'm gonna curl up and die One million things are in my head And no matter how hard I try

I can't seem to get sorted My plans end up aborted The days slip through my clutching hands like grain

There ain't no better way to fly I'd punch the devil in the eye There ain't no better way to live Than on the edge

There ain't no better way to fly I'd punch the devil in the eye There ain't no better way to live Than on the edge

On high On high
