

# Weezer, Please Let That Be You

Lost out in the machine oh babe  
Lifeless, slow, and cold

Alone at home  
Alone too long  
Walk around the complex  
No visitors  
No oxygen  
Just me  
No regret

Please let that be you  
Knocking on my door so loud just like you do-oo  
Bringing a message or two  
You know you are my fate and I love you

Empty everything's technical  
Sterile and endless  
Inside a malfunction  
Observe and obsess

Please let that be you  
Ringing my ophone right now like I wish you would do  
Coming with some good news  
You know you are my fate and I love you

You are my fate and I love  
Stand by my side always be true  
You are my fate and I love you  
Raise my right hand and swear it's true  
You are my fate  
You are my fate  
You are my fate...

Please let that be you  
Singing my song so nice sounding like you doo oo  
Just hum it along to your tune  
You know you are my fate and I love you
