Weezer, Porcupine

Come on, come on and tell me girl
Did you believe it's true
When I was here and waiting girl?
When I was here with you?

All the blood starts pumpin'
Can't you see? Yeah...

Get out, get out and get some sun
'Cause you be turnin' pale
Now that you see I'm in your face
Blacker than blacker shale

All the blood starts pumpin'
Can't you see?

It's a long long time
Since we fell behind
If you'd spend some time with me
I wanna be with you

All the blood starts pumpin'
Can't you see?

It's a long long time
Since we fell behind
If you'd spend some time with me
I wanna be with you
