

Weezer, Queen Of Earth

Queen of Earth
Won't you stand by my side?
We both waited for the bulk of our lives.
Come with me
We can build ecstasy.

Never once have I felt quite this way
Feel my heartbeat is just slipping away
Won't you live in my heart in the ground?
I'm over and done, baby
I'm over and done
I never want to be alone.
I never want to be alone.

(solo)

Won't you live in my heart in the ground?
I'm over and done, baby.
I'm over and done.
I never want to be alone.
I never want to be alone.
