

Weezer, Sweetness & Tenderness

I need to figure this out
And find where my place is
I don't mean to threaten anyone
no need to get so defensive

You say you're with me
I know you don't care
You say you're with me
I know you don't care

I guess it's real simple
It's just like when Gary Numan said,
"You're just a viewer, cold and distant
You are just business, you're worthless"

You say you're with me
I know you don't care
You say you're with me
I know you don't care

Sweetness (ohhh sweetness)
I need some tenderness (ten der ness)
Sweetness (ohh sweetness)
I need some tenderness (ten der ness)

You know it's just like Judas say
I been your right hand man all along
My admiration for you hasn't died
I haven't forgotten how put down we are

You say you're with me
I know you don't care
You say you're with me
I know you don't care

Sweetness (ohhh sweetness)
I need some tenderness (ten der ness)
Sweetness (ohh sweetness)
I need some tenderness (ten der ness)

Come away with me
Come away with me
Sweetness
Come away with me
We can hide in peace
And we can finally rest

This melody's mine, you ought to care
This melody's fine, yes I care
