

# Weezer, Sweetness & Tenderness

I need to figure this out  
And find where my place is  
I don't mean to threaten anyone  
no need to get so defensive

You say you're with me  
I know you don't care  
You say you're with me  
I know you don't care

I guess it's real simple  
It's just like when Gary Numan said,  
&quot;You're just a viewer, cold and distant  
You are just business, you're worthless&quot;

You say you're with me  
I know you don't care  
You say you're with me  
I know you don't care

Sweetness (ohhh sweetness)  
I need some tenderness (ten der ness)  
Sweetness (ohh sweetness)  
I need some tenderness (ten der ness)

You know it's just like Judas say  
I been your right hand man all along  
My admiration for you hasn't died  
I haven't forgotten how put down we are

You say you're with me  
I know you don't care  
You say you're with me  
I know you don't care

Sweetness (ohhh sweetness)  
I need some tenderness (ten der ness)  
Sweetness (ohh sweetness)  
I need some tenderness (ten der ness)

Come away with me  
Come away with me  
Sweetness  
Come away with me  
We can hide in peace  
And we can finally rest

This melody's mine, you ought to care  
This melody's fine, yes I care
