

# Weezer, Thought I Knew

Sorry about my past life  
Sorry but we just missed  
Sorry it had to end up like this

Sorry if I caused you pain  
Sorry I forgot your name  
Sorry but you left me out in the rain

Thought I knew you better then  
Thought I knew your intentions  
Thought I knew, but I didnt have a clue  
Not a single damn thing was true

Sorry if I caused you harm  
Sorry Im no good luck charm  
Sorry you didnt end up in my arms

Thought I knew you better than  
Thought I knew your intentions  
Thought I knew, but I didnt have a clue  
Not a single damn thing was true

Now that I, worlds gone down  
Weve traded away, blew out the spark  
And now were left with broken hearts  
Tryin to find a new place to start

Thought I knew you better then  
Thought I knew your intentions  
Thought I knew, but I didnt have a clue  
Not a single damn thing

I knew you better then  
Thought I knew your intentions  
Thought I knew, but I didnt have a clue  
Not a single damn thing was true, was true
