

Wendy And Lisa, Light

Your mind
Into a free flight
Your heart
A place that's so dark

Come on people
Stand up
Got to shine your light
Into your dark life
Your love
This light is made of

Your life
The warmth of sunlight
Your soul a silence
So gold

Come on people
Stand up
Got to shine your light
Into your dark life
Your love
This light is made of

Your eyes
A place where truth tries
To hide
But truth is too bright

Come on people
Stand up
Got to shine your light, on people
Stand up
Got to shine your light
Into your dark life
Your love
This light is made of

Light into your dark
Life your love
