

West Indian Girl, Lay Down

Lay down imagine and it will be
All you are you'll see
People thought they knew
But your spirit grew

Dance with me...time follows
I'm so high I can't sleep
I'm so high I can't speak
I'm so high with you

Maybe they'll come and take away
Even as the song still plays
The words...they might fade
But the spirit remains

[chorus repeat]

So lay down imagine and it will be
You're here with me
To set fire our effigy
The spirit belongs free

[chorus repeat]
