

Westlife, What do they know

All they know, is when we fight
They never see us in the loving times
What do they know?
They dont know a thing
And they dont know
How the laughter flies
Only the stories
Most of which are lies
What do they know?
They dont know a thing
Chorus
How can you understand?
A love so strong
When youve never shared that with someone
And when all the lies are dead and gone
Well still be here
Well prove them wrong
Cause they dont feel
Your touch at night
The way your hair falls in the morning light
What do they know?
They dont know a thing
Chorus
Cause all they know
Is how to criticise
Theyll never take a chance in their own lives
What do they know?
They dont know a thing
And all I know
Is they dont know a thing
