

Wet Wet Wet, Broke Away

I live a perfect lie
All I ever want lies forgiven
Took away all of those chains and say
They broke away, they broke away

Do you lead a better life
Even when the sweet turns to bitter
Took away all of our chains and said
They broke away, they broke away

Walking round outer space
Knowing that you've had a taste
Walking round and out of place
And knowing what you're gonna do
To break down those chains
I can't tell you
Took away all of our chains and say
Broke away, they broke away

Got away with my ambition
Only if I want it
Only if I don't
Took away all of those chains and say
They broke away, they broke away

Walking round and out of place
Knowing that you've had a taste
Walking round out of place
Nothing what you're gonna do
To break out on me
I can't tell you
Took away all of your chains and say
They broke away, they broke away

And knowing what you're gonna do
To break down those chains
I can't tell you
Take away all of those chains and say
They broke away, they broke away
