

Wet Wet Wet, I Can Give You Everything

Hurry won't you hurry

Light my eye with your smile
Cross my palm with your thought
For the hand that meets the eye
Brings you closer to my mind
Cos in one crowded hour
You plan to make all the moments
(plan to make all the moments)
Last a lifetime

I can give you everything
I can give you everything
I can give you everything
That I want to give

All alone in the heat of the night
Say come on lets be strong
Kindle my soul
For you are my pride and joy

For it is precious
Sing rejoice, sing rejoice
For I bring you good tidings

I can give you everything
I can give you everything
I can give you everything
That I want to give

All washed up and dirty
I had no place to go
I had no place to go
I can give you everything
I can give you everything
I can give you everything
That I want

Come on with your everything
