

Weyes Blood, Twin Flame

And how I tried
So hard to hide the pain
What bad temper we're keeping
And so I followed a light
Into the night
And you kept me waiting
In the dark with no place to hide

'Cause we are more than our disguises
We are more than just the pain
And I'm standing here laughing at my shame

'Cause you're my twin flame
You're my twin flame
And you got me so cold
When you pull away

And now our hours feel
So numbered and small
Holding love for the keeping
Did I do something to wreck it all

'Cause we are more than our disguises
We are more than just the pain
And I'm standing here just callin' out your name

'Cause you're my twin flame
You're my twin flame
And you got me so cold
When you pull away

You're my twin flame
You're my twin flame
And you got me so cold
When you pull away
