

# Whatever It Takes, Both Can't Survive

What it took for us to survive---what it took: both can't survive  
To sing our songs in 3/4 time---what it took: both can't survive  
Like a rusted through '76 Oldsmobile  
And 4 kids drunk off of screaming  
Asleep behind the wheel

And you'll feel wasted  
Feel seamless  
You'll feel like dying

What it took to get to who we are---what it took: both can't survive  
Like a paddle boat in the the deep blue sea---what it took: both can't survive  
Buckets empty out the water seeping in the cracks  
But a crew in love with this vessel enough to make it last...

And you'll feel wasted  
Feel seamless  
You'll feel like dying

Plane crash in the highest mountain range  
In the coldest air, deepest snow  
Seems we're the only survivors on this plane  
But for how long, who knows?

I'll keep fighting till the cold steals my last breath  
But when it does it had better run like hell  
'Cause the remaining passengers won't be taken as well

What it took: both can't survive  
Just remember whatever it takes to live  
Just remember what it took
