

Whatever It Takes, Write For Your Life

(Verse)

taken for all its worth
a couple chords and a few words
sing our song together
sing at the top of our lungs

having met and having me change
was still the best thing,
through all these days

(Chorus)

cause, you live...you learn
and you'll make mistakes
and the writing
is only a cheap escape
(from pain)

(Verse 2)

well I know ill never make things right
and I'm fine with this
as long as you sleep well at night
so sleep well at night
cause what's been said I surely meant
and I'm happy for you
if you're happy without me
alright

(Chorus)

(Bridge)

it took losing you
to find me
