Was a time when my life was mine
Seemed to follow along the line
Now I'm here in different time
Long from when your love was mine

Follow what there is to find
Looking out for all those hidden signs
Never wanted a lonely time
Too bad I can't read your mind

Was a time when my life was mine
Seemed to be going great and fine
Now I'm here in pool of tears
Long from when I held you near

Follow what there is to find
Looking out for all those hidden signs
Never wanted a lonely time
Too bad I can't read your mind

Too bad I can't read your mind

Time time was a time
Time time read your mind
Time time was a time
Time time read your mind
Time time was a time
Time time read your mind
