

White Lies, Step Outside

Say you will
It'll make you feel better
Take your pill
Oh it'll make you feel better

Train your will
You eat the fruit of all mankind
It settles there deep in your mind
Come and eat your fill

Step outside
Get hold of time
Hold my hand
Remember to climb
Step outside
Get hold of time
Hold my hand
Remember to climb

Clear your head
You're still thinking of those lost love letters
I need to feel your touch more than ever
Take another pill

Step outside
Get hold of time
Hold my hand
Remember to climb
Step outside
Get hold of time
Hold my hand
Remember to climb

You're preying on my mind
You sit there like a favourite song
You make the space for me to belong
But it never gets easy

I'm drifting around in time
I'm creeping through the dust of my life
Now I'm reaching for a guiding light
But it never gets easy

Step outside
Get hold of time
Hold my hand
Remember to climb
Oh step outside
Get hold of time
Hold my hand
Remember to climb

Step outside
Step outside
Get hold of time
Get hold of time
Hold my hand
Hold my hand
Remember to climb
Remember to climb
Step outside
Step outside
Get hold of time
Get hold of time

Hold my hand
Hold my hand
Remember to climb
Remember to climb
