

Whitesnake, Give Me Kindness

See me crying looking at the bottom floor
I wrote on my glass like a crystal ball
Oh us with that velvet eyes
They look so sweet and fine
One night losing (?), all we discovered
Making (?) on a one track mind
Tell me who, who, who
Went fooling who
Baby, baby, give me kindness
Warm me with the morning sun
Help me, lose this blindness
To see my life I'll be gone
Honey if you are like me
I just want to know if
If your love is true
Cause one day I'll change(?)
On all this whiskey and come
And I'll put the blame on you
Maybe baby you show me some more
Everytime I want to hold you baby
Give me what a good woman should
Tell me who, who, who has been fooling who
Baby, baby, give me kindness
Warm me with the morning sun
Help me, lose this blindness
To see my life I'll be gone
(Break)
Sing out brothers (sing out brothers)
Sing out sisters (sing out sisters)
Tell me like it is, like it is
Like it is night or day
Sing out brothers (sing out brothers)
Sing out sisters (sing out sisters)
We can always drink the water
But you know we're gonna drink the wine
Sing out brothers (sing out brothers)
Sing out sisters (sing out sisters)
Tell me like it is, like it is
Like it is night or day
Sing out brothers (sing out brothers)
Sing out sisters (sing out sisters)
We can always drink the water
But you know we're gonna drink the wine
Baby, baby, give me kindness
Warm me with the morning sun
Help me, lose this blindness
To see my life I'll be gone
Baby, baby, give me kindness
Warm me with the morning sun
Help me, lose this blindness
To see my life I'll be gone
