

Whitesnake, Hole In The Sky

Everyday Im more confused
In my life youre all I know
Laid your love before me
I thought it would knock me down
Had me screaming in the morning
Theres a hole in the sky
Dont tell me youre sorry who cares
Theres a tear in my eye
Dont tell me youre sorry who cares
Used to be cool but I wait anymore (?)
When you told me it was gone
Always playing love songs alone
Without you near Ill never make it on my own
Theres a hole in the sky
Dont tell me youre sorry who cares
Theres a tear in my eye
Dont tell me youre sorry who cares
Now everytime I want to hold you
To give you love that was made for me
Now I can feel it I need you close to me
If you really want me and baby if you really care
Youve got to say right by my side
Youve got to say right by my side
Cause I need you baby
