

# Whitney Houston, Believe in love

You feel you can't get through these trying times  
And just because no one's around you  
You think you're alone  
But just remember there is something  
That's always with you  
Lending shelter from the rain  
picking you up and whispering  
I am here so cast the love you can  
I'll take the pain when it's too hard to bear  
I'll be here for you if you believe

Chorus

No matter how high you climb (glide?)  
Be sure you know the reason why  
The one thing that got you there is love (is love)  
Whenever you're a loose inside (losing sight?)  
Love is there to be your guide  
Know that there's always a care in love  
(if you believe in love)  
When situations come, all hope seems gone  
You feel there's not a single reason for life to go on  
Don't you know that there are mountains we almost climb  
But when you reach that mountain's peak  
You'll overcome without defeat  
I am here with all the strength you need  
I'll help you climb that mountain's highest peak  
I'll be here for you if you believe

Chorus

Bridge

Love is the key  
And within love you'll find  
That when you're alone  
You'll have peace of mind (oh yes you will)  
Having the strength to make it through the day  
Believe and love will make the way

Chorus
