

Whitney Houston, You're still my man

On the day that you left me
You said you had no regrets
There's a bond between us
That hasn't been broken yet
And the feelings between us
Will never disappear

How can you be far away
When your spirits here

(Chorus)

You're still my man
Nothing can change it
We still belong together
You're still my man
Nothing can change it
Our love will last forever
And the seasons of our love
Will always change I know

Maybe that's the reason

You felt you had to go

But soon you'll be missing me

Darling, I know you well

There's a magic we share together

And no one can break that spell

(Chorus)

I'll wait for you

The thought that keeps me going each day

Is I believe you still love me

I love you more than words can say

(Chorus-Repeat)
