

# Whytेशadows, Whyte Shadow- What Will I Do

We talked about, our dreams forever then  
Sitting around the old campfire  
Holding each other's hand in hand  
I hope and pray it would never end  
That one day, we could make our dreams come true  
Just u and me

Those precious times that we often shared alone  
Our only old moments left indeed  
Its time to leave them all behind  
I really thought that it would never end  
But why, did it have to be this way cause I still love you  
And yes I do  
What will I do, and I need to talk to you to give  
Your loving words to me now baby  
Wishing I would be, the one you love too  
Where will I go, I need to be will you to see your smiling face next to mine  
Taking away all the sorrow and the pain

You have been gone, for such a long time now  
And no one can ever take your place  
Without you my life is broken  
There is nothing left except to say good bye  
And hope, one day you will be back  
One me again, forever

What will I do, and I need to talk to you to give  
Your loving words to me now baby  
Wishing I would be, the one you love too  
Where will I go, I need to be with you to see your smiling face next to mine  
Taking away all the sorrow and the pain

What will I do, when I need to talk to you  
To give your loving words to me now baby  
Wishing I would be, the one that you love too  
Where would I go, when I need to be with you  
To see your smiling face, next to mine  
Taking away all the sorrow and the pain  
Taking away all the sorrow and the pain
