

Wide Mouth Mason, Mad Doctor

Never came back, you never came around
You never came back, never comin' down

Whatcha gonna do?
I wanna go
Where you goin' to?
I don't know
Whatcha gonna find?
I don't care but I'm leaving this behind

Who you gonna call?
Just me
Whatcha runnin' on?
Empty
Where is everyone?
I don't care cause they're never gonna come

Whatcha gotta say?
Not a thing
What didja throw away?
My wings
How you gonna land?
I don't care cause i'm never gonna stand

How'd you get so high?
Big dose
Are you gonna fly?
Comin' close
Don't it make you mad?
I don't care 'cause caring makes you sad

Walk with wings
And never hear
You'll try to steal it

Never came back, you never came around
You never came back, never comin' down
Never came back, you never came around
You never came back, never comin' down

Never came around
Look out

Walk with wings
And never hear
You'll try to steal it back
It's all a blur, a traveller
Jumpin' from the tracks

Never came back, you never came around
You never came back, never comin' down
Never came around
Never came around
Never came around
Never comin' down

Turn your volume real loud
Saf ("That's all I got ...")
