

Wig Wam, Bless the night

You want me stay forever
Love you for worse and better oh
Well I have my doubts about it
Tommorow is another venue
Another city, a new hotel room oh
And I just can't live without it
Reach out and catch your moment
This heart of mine was made for touring

Chorus:

Bless the night It's now or never

You and I

And tons of pleasure

Bless the night

Enjoy the moment with me

Bless the night

It's now or never

You and I

Close together

Bless the night

Enjoy the moment with me

A broken heart is what

I offer

And I'm not worth a life in torture, no

You're happier without it

So baby put your arms around me S

ave tonight in your minds diary, oh

Eat it while you have it
