

Wiktoria Tracz, Close

It's been some time now
That we grew together
We travel through the time
Hoping it's forever
Don't understand how
We can be so calm
When the world is losing strings to what we've become

I need you to be close to me
Like you never been before
Imagine you and me
I need you to be close to me
Like you never been before
Imagine you and me, ooh

We're so close
Just another second
We're so close
Close to my forever
We're so close
No one has to be here
We're so close!

We're from different minds
But I can hear you clear
Through sad or happy times
Never be alone
I don't understand how
We can be so calm
When the world is losing strings to what we've become
