

Wilburn Brothers, Big Heartbreak

You walked away and said it was goodbye
You laughed when you saw teardrops in my eyes
But I'm still yours completely heart and soul how can a heart so warm love one so cold
The big heartbreak started then the big heartbreak just won't end
Please come back soon to this old used to be
Or the big heartbreak will be the death of me
(fiddle - steel)
If I could only stop my loving you then maybe I could love somebody new
This pain is killing me what can I do I just can't live much longer without you
The big heartbreak hurts me so the big heartbreak won't let go
Please come back soon...
