

Wilburn Brothers, My Day Won't Be Complete

All the town is sleeping by now you're day is through
But my day won't be complete until I've cried for you
Think about old mem'ries and have a hurt or two
For my day won't be complete till my heart aches for you
All these things I have to do before my day's complete
Like wishing you were here with me then cry until I sleep
I talk to your picture just like I always do
For my day won't be complete until I talk to you
(piano)
All these things I have to do before my day's complete
Like wishing you were here with me then cry until I sleep
Take the bottle from the table and have a drink or two
For my day won't be complete until I drink to you
