Wilco, Far, Far Away

Far, far away In those city lights The night He's shining on you tonight Far, far away from you On the dark side Of the moon

Well I long to hold you In my arms and sway Kiss and ride on the CTA I need to see you tonight In those bright lights Well, I'll know it's right

Deep in my heart I'll know it's right

By the bed, by the light That you read by By the time That I get home to say goodnight I need to see you again On the dark side, my friend

On the dark side
