

# Wilco, Hotel Arizona

Hotel in Arizona made us all wanna feel like stars  
Rental cars and tinted windows, leave another number for me  
Even if I make it through  
That's just something that I have to get used to  
That's just something I have to get used to  
I feel some connection between you and me  
Well I guess there's some direction maybe you can't see  
Even at the interview, that's not something that I'm gonna get used to  
That's not something I'm gonna get used to  
Hello, can you hear?  
Hello, that's all there is, that's all there is  
I guess all this history is just a mystery to me  
One more worried whisper right in my ear
