

# Wilco, Walken

I'm walking all by myself  
I was talking to myself  
About you  
What am I gonna do

I was singing this song about you  
I was thinking about singin this song for you

The more I think about it  
The more I know it's true  
The more I think about it  
The more I know it's you

Honey I think you're just right

I was walking, like I said, by myself  
I was talking to myself  
About you

The more I think about it  
The more I know it's true  
The more I think about it  
The more I know it's you

Honey I think you're just right
