

Wild Orchid, Follow Me

In the middle of the rapture - tell me where will you go
Baby don't get captured - 'cause then I'll have to follow

I will follow you anywhere
Oh, where you are I will be there
Then you'll follow me

In the middle of the ocean - tell me where will you be
Once you reach your destination - look around
You will find me I will follow you anywhere
Oh where you are I will be there, then you'll follow me

Chorus:
Just follow me, let your mind be free
I will be waiting
Just follow me, so patiently
Love will be waiting

In the middle of the desert - thirstin' for what's out of reach
Lift your hands up to the sky - and you'll touch a part of me
'Cause you know where you are I will be there
Just follow me. Come on. So patiently, love will be waiting

Chorus

As you're runnin' from the thunder - listen through the pouring rain
And you'll hear a silent echo - I'll be calling out your name
I will follow you anywhere
Oh where you are I will be there

Chorus till fade
