

# Wild Orchid, Tic Toc

Sometimes when two people meet  
You know that undeniably  
There can be an instant chemistry  
Do you feel the magic here with me  
Ohh, let's not wait  
No need to hesitate  
Better find out before it's too late

Chorus

Tic toc look at the clock  
Love is just a moment away  
Don't stop, make my world rock  
Come closer don't make me wait  
Tic toc the doors are all locked  
Love is just a moment away

Never gonna stop  
Gonna make you rock  
To the rhythm of the Tic Toc

Longing for those sleepless nights  
Sunday morning lazy days and candlelight  
The anticipation drives me wild  
Fantasies they just won't leave my mind  
Ohh let's not wait  
Destiny said this is fate  
Just imagine what we could create

Chorus

All night long  
Never gonna stop  
Gonna make you rock  
To the rhythm of the Tic Toc  
Feel the rhythm of the Tic Toc  
Just hold on  
Take it nice and slow  
Wanna make it slow  
Like the rivers and the oceans go  
Feel the current deep down below  
We'll be free  
It's a mystery  
Wondering what will be  
Fortune tellers are telling me  
In the crystal ball they can see  
You and me

Ohh, time keeps ticking away  
It goes by so fast  
Let's live in the moment, let's make this love last

Chorus
