

Wildhearts, There's Only One Hell

Well, I'd forgotten how lonely being alone can be
And now I'm finding it out
Well I've been hiding a memory that's coming to get me
Coming back, and how!

Because there's only one hell you can put me through
You can't hurt me more than you already do
I'd forgotten the strength it takes to make it through
And boy, I've got the joy of that now
Oh boy, I've got the joy of that now

Well, I'd forgotten how lonely being alone can be
It never hit me before
Well I've been over the edge and I've been out on a ledge
But you can always hurt a little more

Because there's only one hell you can put me through
You can't hurt me more than you already do
I used to hate myself until I found you
Forgotten all about it somehow
Oh boy, I've got the joy of that now

Set me free, just how much blood do you need?
Set me free, 'cos I remember the journey
I'd just forgotten how lonely

Well, I'd forgotten how lonely being alone can be
And now I'm finding it out
Thought I was over the worst until the fantasy burst
And now I'm picking myself off the ground

But there is only one hell you can put me through
It's the same old place that I already knew
I'd forgotten the true definition of blue
And boy, I got the joy of that now
Oh boy, I got the joy of that now
Oh boy, I got the joy of that now
