

Wildstylez, Year Of Summer (ft. Niels Geusebroe

The clouds have gone away
To start a brighter day
We have waited for too long
It's time to let it out
You know what it's about
I've waited all to feel the sun
The harder it gets, the faster we seem to fall in love
The deeper we fall, the more we lose control
Set your mind free, it's the Year of Summer

Keep your heart strong cause it's all that's here,
Set your mind free, it's the Year of Summer
Yeah the Year of Summer's here

The harder it gets, the faster we seem to fall in love
The deeper we fall, the more we lose control

Set your mind free, it's the Year of Summer

Keep your heart strong cause it's all that's here
Set your mind free, it's the Year of Summer
yeah the Year of Summer's here

The clouds have gone away
To start a brighter day
We have waited for too long
