## Will Young, Home

Tell me how did we fall into this place
We move on, we will never be replaced
And I can't even think about the next
It's too far away
First I must forget, by leaving
I am a different man
I didn't have the picture
For the perfect frame
I know that

We travelled streets unknown Been away too long Now it's time to go home Back with our love

We should never be strangers You should never pass me on the street Would you please remember me as I remember you

Looking back we were strangers in the night We were told that we let our hearts collide And I swear I had the time of my life Wish I could stay, it just wouldn't be right

I know you
You turn the light off last
You let me sleep to dream
You let me wake up first
I believe in you and that will never change
But I must turn away
Now it's time to go home

Home, back with our love We should never be strangers You should never pass me on the street Remember me please Now it's time to go home
