

# Willie Dixon, Earthquake And Hurricane

Hurricane hurricane

A mighty earthquake and a hurricane

The earth cracked open and was breathing fire

Everybody&#039;s running none ready to die

Some going crazy some insane

Saying save me from the mighty hurricane

People scrambling and on the run

Like they were hit with the atom bomb

Some lay cripple some lay lame

Just save me from the mighty hurricane

Rich folks falling down on their knees

Begging lord have mercy if you please

Take all of my money I don&#039;t need a thing

Just save me from the mighty hurricane
