## Willie Dixon, Flamin' Mamie

They call her Flamin' Mamie She's the hottest thing in town When it comes to loving She's a human oven She can really mow 'um down

Every time she

shimmy

Every time the poor girl shake

Mamie do more damage

Than the San Francisco quake

Mamie loved the fireman

The fireman had to retire

Said he tried the rest

But she's the best

She's hotter than Chicago's fire

Mamie told guitar red

She could love a man

Till he falls dead

She told Cruda Crall, John and Jack

She would love them all

Till she breaks their backs

Mamie loved her way to hell

She loved the devil

And she loved him well

Little devil running up and down the wall

Saying do something daddy

She's gonna love us all
