

Willie Dixon, Study War No More

Wont that be one mighty day, when we hear world leader say
We dont have to cry no more, were giving it up, were gonna let it go

Aint gonna study, study war no more, aint gonna think, think of war no more
Aint gonna fight, fight the war no more, were giving it up, were gonna let it go
Were giving it up, were gonna let it go

We will take gun powder to have fun, then get rid of the atom bomb
Something else that we can do, get rid of all those rockets, too

Aint gonna study, study war no more, aint gonna think, think of war no more
Aint gonna fight, fight the war no more, were giving it up, were gonna let it go
Were giving it up, were gonna let it go

The money spent on bombs alone can build poor people a happy home
And some good we can do, you treat me like I treat you

No more starving in the nation, everybody getting an education
Ev'rytime a baby is born, we know hell have him a happy home

Aint gonna study, study war no more, aint gonna think, think of war no more
Aint gonna fight, fight the war no more, were giving it up, were gonna let it go
Were giving it up, were gonna let it go

No more sleeping in the street, were all happy, whoever we meet
Then we all will shake a hand, and make this world a promised land

Aint gonna study, study war no more, aint gonna think, think of war no more
Aint gonna fight, fight the war no more, were giving it up, were gonna let it go
Were giving it up, were gonna let it go, were giving it up, were gonna let it go
