

# Willie Nelson, Love's The One And Only Thing

She tries to give up on love every morning  
But there's that ceiling  
And there she is by herself  
Wondering if she'll ever find that feeling  
Till there's someone  
There'll be nobody else

Chorus:

Woman don't give you heart away to just anyone  
Even though the strongest will don't like to wait  
A heart'll do just about anything to feel love  
And love's the one and only thing her heart  
Really wants to make

A cup of coffee on the dresser putting on her make up  
She looks in the mirror and the mirror has something to say  
That loneliness that needing and that wanting  
It's all part of longing  
It's your saving grace.

Chorus:

So woman don't give you heart away to just anyone  
Even though the strongest will don't like to wait  
A heart'll do just about anything to feel love  
And love's the one and only thing her heart really wants to make. x2
