

# Willie Nelson, Make Way For A Better Man

Give me talkin' now you tried to make her happy you couldn't make her happy  
Make way for a better man than you  
You tried your brand of lovin' she couldn't stand your lovin'  
Make way for a better man than you  
I held back cause you and I were friends  
But old buddy this is where our friendship ends  
I'm takin' over now those signals she keeps sendin' means your romance is endin'  
Make way for a better man than you  
( guitar - steel )  
Those fancy words you told her were not enough to hold her  
Make way for a better man than you  
I guess you're in your lockout you came to back and struck out  
Make way for a better man than you  
I held back cause you and I...  
Make way for a better man than you
