

Willie Nelson, Pretend I Never Happened

Pretend I never happened
Erase me from your mind
You will not want to remember
Any love as cold as mine

I'll be leaving in the morning
For a place that I hope I find
All the places must be better
Than the ones I leave behind

But I don't suppose you'll be unhappy
You'll find ways to spend your time
And if you ever think about me
And if I ever cross your mind
Just pretend I never happened
Erase me from your mind
You will not want to remember
Any love as cold as mine

(guitar)

But I don't suppose you'll be unhappy
You'll find ways to spend your time
And if you ever think about me
And if I ever cross your mind
Just pretend I never happened
Erase me from your mind
You will not want to remember
Any love as cold as mine
Any love as cold as mine
