

Winans Phase 2, Come On Over

Chorus:

If you're tired of all the pain
And you're hoping that the seasons change
It's time to rearrange
Come on over to the other side
If you're hurting from a broken heart
And you're searching for another start
It's time to realize
Come on over to the other side
Now the party's come and gone
Been up all night long
Heard the same old songs
Still you feel alone
Is this how life should be?

Shame and misery
What can set you free
And make you happy?

Chorus

Crying tears of shame
Looking for new hope
Reaching for those friends
That left you long ago
Scoping out the world
For a better life
But if you look to him
He'll give you some insight
Chorus
