

Windser, Memory

You can't turn back the clocks
Even when you want to
The world is changing it won't stop
Even when it's supposed to
All of the friends you had before are
Raindrops just falling at your door
Every word you said
Is just a memory stuck in my head
Like a videotape
It's just a memory slipping away
Echoes in the dark
Fading where we are
Every word you said
Is just a memory stuck in my head
The future's here and then it's gone
Like another sunrise
The light is blinding when it's on
Living just for tonight
All of the friends you had before are
Raindrops just falling at your door
Every word you said
Is just a memory stuck in my head
Like a videotape
It's just a memory slipping away
Echoes in the dark
Fading where we are
Every word you said
Is just a memory stuck in my head
Every word you said
Is just a memory stuck in my head
Like a videotape
It's just a memory slipping away
Echoes in the dark
Fading where we are
Every word you said
Is just a memory stuck in my head
