

Winger, It All Comes Back Around

Be sure you're looking down
As you're flying through the clouds
Keep your demons safe and sound
Cause It All Comes Back Around
Yeah It All Comes Back Around

Dark heart
Disguised
Street smart
You survived
Preying on
Weak souls
Your cruel ways
Out of control

Forgot where you came from
You thought you'd get away
You never got busted
You'd just fly away

Be sure you're looking down
As you're flying through the clouds
Keep your demons safe and sound
Cause It All Comes Back Around
Yeah It All Comes Back Around

Faux walls
Close in
Hear the call
Of reckoning
Scorched earth
In your wake
It's not worth
What you'll pay

Your empire of nothing
Couldn't break your fall
Your karma ain't bluffing
It always sees it all

So be sure you're looking down
As you're flying through the clouds
Keep your demons safe and sound
Cause It All Comes Back Around
And when you're broken on the ground
Stunned your world's come crashing down
Just remember what you found
That it all comes back
It All Comes Back Around

Be sure you're looking down
As your flying through the clouds
Keep your demons safe and sound
Cause It All Comes Back Around
And when you're broken on the ground
Stunned your world's come crashing down
Just remember what you found
That it all comes back
It All Comes Back Around

It All Comes Back Around
