

Winona Oak, Island Of The Sun

When was the light replaced?
Now it's all ice in rain
I used to know you're face like second nature
When did the darkness come
In between this love
When did our hearts become strangers?

Come with me
Follow me now I wanna turn this around
Give me a feeling like wow
Aah
Paint me with color again
Like it was summer again
I wanna love you like when

Kiss me, kiss me golden
Like our hearts were never broken
On the Island of the sun
On the island of the sun
Waves keeps crushing over and
Our skin taste like ocean
On the island of the sun
On the island of the sun

I swear the stars will dance
My body's in your hands
We got a promise land, why waste it

Kiss me, kiss me golden
Like our hearts were never broken
On the Island of the sun
On the island of the sun
Waves keeps crushing over and
Our skin taste like ocean
On the island of the sun
On the island of the sun

oh take me back
take me back
I wanna you feel you on my skin
take me back
take me back
I wanna hold you like it's summertime
like I never lost your light
make it last
make it last
make it last
make it last

Kiss me, kiss me golden
Like our hearts were never broken
On the Island of the sun
On the island of the sun
Waves keeps crushing over and
Our skin taste like ocean
On the island of the sun
On the island of the sun
