Winter rose, Dianna

I've spent some time In and out of the rain It was beautiful

The way you walked into my life

Now

That my love is yours

you're oh, so far away But I need you here

To feel you by my side

Dianna

Will hold you in my arms again?

Dianna

What am I going to do?

I want to make love to you

Dianna

I've dreamed of nights

With our hearts left unchained

I'd be with you

Even though we were apart

And now that my love is yours

You're oh, so far away

But need you here

To feel you by my side

Dianna

Will hold you in my arms again?

Dianna

What am I going to do?

I want to make love to you

Dianna

I know we'll be together

Love can stand the best of time

Forever

The victory's so sweet

The world would kneel at my feet

I can hardly wait

'Till we're together

Dianna

Will hold you in my arms again?

Dianna

What am I going to do?

I want to make love to you

Dianna
